Incentive and Support Eligibility Screening

Which Turkish government incentives can your company use — which are you missing, and what is needed for each?

SAMPLE REPORT · FICTIONAL COMPANY

Company	**Sample Plastic Packaging Inc. (fictional)**
Profile	**Manufacturing · Konya · SME · exports 28%**
Supports screened	**61 supports · Support Catalogue v1**
Result	**29 eligible · 3 likely · 28 not eligible**
Report date	**16 Nov 2026**

This report is for information only; it is not legal, tax or investment advice. Supports are taken, with their official sources, from the PillarRise Support Catalogue; rates, limits and call dates may change — confirm with the relevant institution and your accountant before applying. The company in this sample report is fictional. Catalogue texts are English renderings of the Turkish originals.

PRIORITY SUPPORTS

Eligible	**D19 VAT exemption and customs duty exemption within the scope of an incentive certificate** Republic of Türkiye Ministry of Industry and Technology (certificate); Turkish Revenue Administration and customs administration (implementation) · Open all year · deadline 31 Dec 2030
Eligible	**D03 Tax reduction (reduced corporate/income tax – investment contribution)** Republic of Türkiye Ministry of Industry and Technology (certificate); Revenue Administration (implementation) · Open all year · deadline 31 Dec 2030
Eligible	**D06 Interest or profit share support** Republic of Türkiye Ministry of Industry and Technology – Directorate General of Incentive Implementation and Foreign Investment; contracted banks and financial leasing companies · Open all year · deadline 31 Dec 2030
Eligible	**D16 2-Percentage-Point (5-Percentage-Point in Manufacturing) Reduction in Employer's Share of Disability, Old-Age and Survivors Insurance** Social Security Institution (SGK) (from the budget of the Ministry of Treasury and Finance) · Open all year
Eligible	**D09 SME Digital Transformation Support Programme** KOSGEB (in cooperation with EBRD) · Open all year · call open

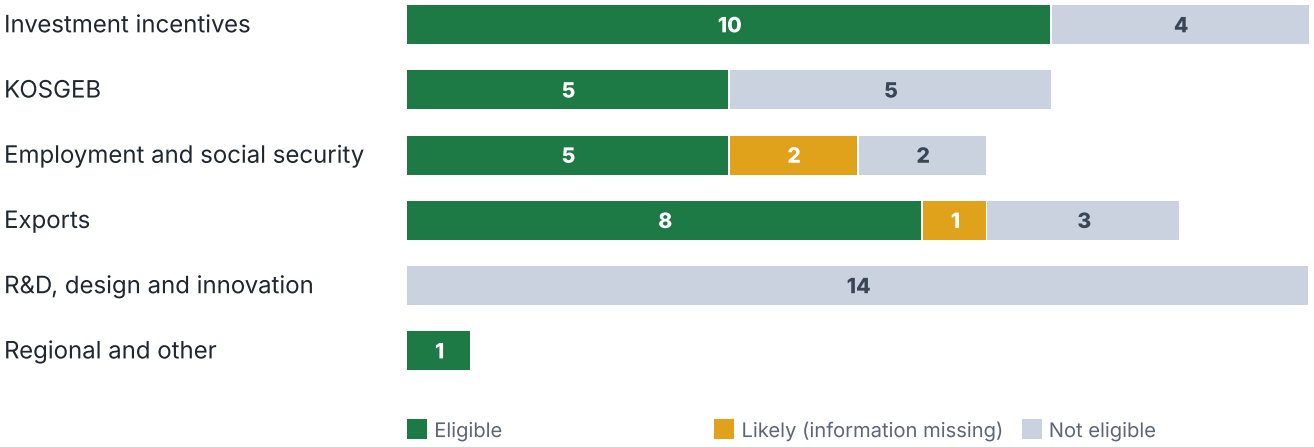

The company looks eligible for a large share of the catalogue, driven by its planned capacity expansion, its exports and its manufacturing activity. The biggest opportunity sits in the package opened by an investment incentive certificate: tax reduction, VAT and customs duty exemption on machinery and interest support. The precondition for that package is applying for the certificate before any machinery order is placed; as the consultant notes, this step has not been taken yet. Social security premium support for current staff can be used now and is calculated at the higher manufacturing rate. On the export side, membership of an exporters' association and a registered trademark open the door to trade fair, promotion and market research supports, while R&D supports remain closed until a new product or technology project is started.

- D19: If the investment incentive certificate is not applied for before the machinery is ordered, the VAT and customs duty exemption on that machinery is lost.
- D16: The social security premium reduction for current employees is applied automatically through the monthly declaration; keeping the company free of overdue social security debt is enough to retain it.
- D09: The SME Digital Transformation Support Programme is open all year and fits the planned digital investment; confirm eligibility with KOSGEB before signing supplier contracts.

1 expired support in the catalogue was not screened.

This report is for information only; it is not legal, financial or investment advice. Before applying, confirm with the relevant institution and your accountant. Rates and upper limits are taken from version v1 of the support catalogue (15 Nov 2026). Support descriptions are English renderings of the official Turkish texts; the Turkish original prevails.

2 Eligibility map

SUPPORT FAMILY	ELIGIBLE	LIKELY	NOT ELIGIBLE
Investment incentives	10	0	4
KOSGEB	5	0	5
Employment and social security	5	2	2
Exports	8	1	3
R&D, design and innovation	0	0	14
Regional and other	1	0	0

Opportunities cluster in investment incentives and export supports, the two areas that match the company's current plans most directly. Eligibility is also high in KOSGEB and employment supports, where the difference between programmes mostly comes down to call periods. R&D, design and innovation supports are closed for now because the company reports no R&D spending or R&D staff. Confirming whether the company will hire women, recruit people on unemployment benefit and sell through e-export channels would turn the three likely supports into firm results.

Information that would sharpen the report

The following was left blank or answered "Don't know". If it is completed, some of the "Likely" supports will be confirmed.

INFORMATION	SUPPORTS AFFECTED
Exports or will export through e-commerce	1
Plans to hire women	1
Hiring people on unemployment benefit	1

3 Investment incentives

Investment incentive region: **Region 2** (Konya). A different region may apply in earthquake-zone districts and some organised industrial zones.

10 Eligible	**0** Likely (information missing)
4 Not eligible	**14** Screened under this heading

The planned capacity expansion with imported machinery qualifies the company for the core investment incentive package. Tax reduction, VAT and customs duty exemption, interest support and the employer social security share support all depend on a single document, the investment incentive certificate. The programmes under the Century of Türkiye Development Move that require a larger investment or a new technology project are not eligible at present, and the region-specific supports do not apply to the company's location.

Consultant observation — Quotes for the new production line machinery have been received; the investment incentive certificate application has not been filed yet and must be submitted before the machinery order is placed.

The consultant's company-specific observation; it does not change the eligibility result.

Eligible supports

D03 Tax reduction (reduced corporate/income tax – investment contribution) Eligible

Republic of Türkiye Ministry of Industry and Technology (certificate); Revenue Administration (implementation) · Tax · Open all year · deadline 31 Dec 2030

Earnings derived from investments under an incentive certificate are subject to corporate/income tax reduced by 60% until reaching the investment contribution amount; a portion of the contribution amount may also be applied to earnings from other activities during the investment period.

Why it is a priority: The tax reduction continues to benefit the company for years after the investment, as profits from the new capacity are earned.

RATE

Tax reduction rate is 60% across all programmes. Investment contribution rate: Technology Move and Local Development Move 50%; Strategic Move 40%; Priority Investments 30%; Target Investments 20%. The portion that can be applied to earnings from other activities during the investment period is at most 50% of the total contribution amount...

UPPER LIMIT

Investment contribution amount = fixed investment amount × contribution rate. Upper limit of additional contribution for the addition of a new company (2026): Century of Türkiye TRY 75,300,000, Priority TRY 7,500,000, Target TRY 3,000,000 (2025: 60 / 6 / 2.4 million TL).

Also required at application:

- The investment must obtain a certificate tied to an incentive programme (Target/Priority/Century of Türkiye); there must be taxable income to benefit
- Target investments in Istanbul cannot benefit from tax reduction
- Electricity generation, transmission, distribution, storage, and gas distribution via the main grid investments (Target) cannot benefit from tax reduction

D04 Local Development Initiative Programme (Century of Türkiye Development Initiative) Eligible

Ministry of Industry and Technology of the Republic of Türkiye – Directorate-General for Development Agencies; relevant development agency · Mixed · Call-based · deadline 31 Dec 2030

Projects under the 4 local investment topics designated for each province are evaluated by the development agency and the Ministry committee; approved projects receive an incentive certificate without a separate application and utilise the same support measures as the Technology Initiative.

RATE

Tax reduction: tax contribution rate 50%, reduction rate 60%. Interest/profit share support: 40% of the CBRT one-week repo rate, maximum 20 points, for up to 70% of the fixed investment for TL loans with a minimum maturity of 1 year. Or machinery support: 25% of the cost of machinery and equipment with a unit price of TRY 2.5 million and...

UPPER LIMIT

Interest support: 20% of fixed investment and TRY 301,000,000 (2026). Machinery support: 15% of fixed investment and TRY 301,000,000 (2026). Minimum fixed investment amount is determined in the call.

Also required at application:

- The investment must be in one of the 4 local investment topics announced that year for the province where the facility is located
- For expansion investments, an increase of at least 75% in existing capacity and at least 50% in existing employment (2025 call information, secondary source)
- Evaluation by the development agency board of directors (45 days) and approval decision by the Ministry committee

D05 Digital Transformation Programme and Green Transformation Programme (as priority investment) Eligible

Ministry of Industry and Technology of the Republic of Türkiye (Digital Transformation: Directorate-General for National Technology) · Mixed · Open all year · deadline 31 Dec 2030

Digital transformation investments that enhance efficiency/quality through the integration of technology into processes, and green transformation investments such as circular economy and low-carbon production, benefit from priority investment support; the ANNEX-3 topic condition is not required.

RATE

Priority investment support: tax reduction with a 30% contribution to investment and 60% reduction; interest/profit share support of 25% of the CBRT one-week repo rate, maximum 12.5 points; VAT exemption, customs duty exemption; social security premium employer's share according to region; investment site allocation. Digital/green transf...

UPPER LIMIT

Interest support (priority): 10% of fixed investment, TRY 30,100,000 for 2026. Minimum fixed investment for the Strategic Initiative route is TRY 62,700,000 in 2026 (2025: TRY 50,000,000).

Also required at application:

- Approval of the project as a digital/green transformation project in accordance with the programme procedures and principles
- The 25% intangible fixed asset cap does not apply to Digital Transformation, but applies to Green Transformation
- Minimum TRY 62.7 million for the Strategic Initiative route (2026)

D06 Interest or profit share support Eligible

Republic of Türkiye Ministry of Industry and Technology – Directorate General of Incentive Implementation and Foreign Investment; contracted banks and financial leasing companies · Interest / profit share · Open all year · deadline 31 Dec 2030

A portion of the interest/profit share on TRY investment loans with a maturity of at least 1 year utilised for incentive-certified investments—up to 70% of the fixed investment—is covered by the Ministry's budget, indexed to the TCMB policy rate.

Why it is a priority: If the expansion is financed with an investment loan, interest support lowers the financing cost; confirm the eligible loan terms with the bank in advance.

RATE

Based on the TCMB one-week repo auction interest rate: Technology and Local Development Move 40% (maximum 20 points); Strategic Move 30% (maximum 15 points); Priority Investments 25% (maximum 12.5 points); Target Investments only in Regions 4, 5, and 6 at 25% (maximum 12.5 points). For foreign currency loans, support is calculated at 2 p...

UPPER LIMIT

2026: Technology/Local Development 20% of fixed investment and TRY 301,000,000; Strategic Move 15% and TRY 226,000,000; Priority 10% and TRY 30,100,000; Target (Regions 4–6) 10% and TRY 15,100,000 (2025: TRY 240 / 180 / 24 / 12 million).

Also required at application:

- A TRY investment loan with a maturity of at least 1 year or financial leasing with an amortisation schedule must be utilised for the investment
- Interest support is not granted to investments receiving machinery support under Century of Türkiye programmes (one must be selected)
- Interest support is not granted to Target investments in Istanbul or to investments in electricity generation/distribution/storage and gas distribution via the main grid

D08 Target Investments Incentive Scheme (Sectoral Incentive Scheme – regional supports)

Eligible

Republic of Türkiye Ministry of Industry and Technology – Directorate General of Incentive Implementation and Foreign Investment · Mixed · Open all year · deadline 31 Dec 2030

For investment topics in Annex-3 exceeding the minimum fixed investment amount, VAT exemption, customs duty exemption, tax reduction, employer's social security contribution support depending on the region, interest/profit share support in Regions 4–6, and investment site allocation are provided.

RATE

Tax reduction: investment contribution rate 20%, tax reduction rate 60%. Employer's social security contribution support (50% of the portion corresponding to the minimum wage in Regions 1–5, 100% in Region 6): Region 1 none, Region 2 1 year, Region 3 2 years, Region 4 4 years, Region 5 8 years, Region 6 12 years. In Region 6, employee's...

UPPER LIMIT

Interest/profit share support: 10% of the fixed investment amount and TRY 15,100,000 for 2026 (2025: TRY 12,000,000). Minimum fixed investment (2026): TRY 15,100,000 in Regions 1–2, TRY 7,500,000 in Regions 3–6 (2025: TRY 12 / 6 million). Annex-3 specifies higher thresholds for specific topics (e.g. manufacture of plastic products TRY 12...

Also required at application:

- The investment topic must be included in Annex-3 and meet the scale/capacity conditions specified therein (e.g. minimum area/head count according to region in greenhouses, cattle farming; h...
- Target investments in Istanbul cannot benefit from tax reduction or interest/profit share support; Annex-3 Group B mining and quarrying are not supported in Istanbul
- Investments in electricity generation, distribution, storage, and gas distribution via the main grid cannot benefit from tax reduction and interest support

D10 Machinery support (Century of Türkiye Development Move) Eligible

Republic of Türkiye Ministry of Industry and Technology – Directorate General of Incentive Implementation and Foreign Investment · Grant · Open all year · deadline 31 Dec 2030

Under Century of Türkiye programmes, 25% of the cost of machinery and equipment whose unit price exceeds the minimum amount is covered on a non-reimbursable basis from the Ministry's budget; it serves as an alternative to interest support.

RATE	UPPER LIMIT
25% of the machinery and equipment cost with a unit price of TRY 2,500,000 (2026; 2025: TRY 2,000,000) and above (excluding other expenses). Not granted to investments receiving interest/profit share support.	15% of the fixed investment amount and, for 2026, TRY 301,000,000 under the Technology/Local Development Move, and TRY 226,000,000 under the Strategic Move (2025: TRY 240 / 180 million).

Also required at application:

- The investment must be approved under the Technology Move, Local Development Move, or Strategic Move
- Unit price of the machine must be at least TRY 2.5 million (2026)
- Used complete plants and machinery cannot benefit from machinery support; used/refurbished machinery under Annex-4 is excluded from scope in Century of Türkiye investments

D12 Priority Investments Incentive Scheme Eligible

Republic of Türkiye Ministry of Industry and Technology – General Directorate of Incentive Implementation and Foreign Investment · Mixed · Open all year · deadline 31 Dec 2030

Investments in priority subjects listed in Art. 9 of the Decision (digital/green transformation, high and medium-high technology, defence, R&D, data centres, certain energy, mining, logistics, tourism, education, healthcare, elderly/disabled care, licensed warehousing, earthquake/fire retrofitting, etc.) receive higher tax reduction than the Target system r...

RATE	UPPER LIMIT
Tax reduction: tax contribution rate 30%, tax reduction rate 60%. Interest/profit share support (all regions): 25% of the CBRT one-week repo rate, maximum 12.5 points. Employer's social security contribution share: according to the region where the investment is located (Region 1 none, Region 2: 1 year, Region 3: 2, Region 4: 4, Region 5...	Interest/profit share support: 10% of the fixed investment and TRY 30,100,000 for 2026 (2025: TRY 24,000,000). Specific minimum amounts by subject (2026): high technology TRY 627,000,000, medium-high technology (specified products outside Istanbul) TRY 1,255,000,000, LNG and underground gas storage TRY 627,000,000, cloud service data cen...

Also required at application:

- The investment subject must be one of the priority subjects in Decision Art. 9 and must meet the condition in the relevant paragraph (e.g. TSE certificates and PUE value for data centres, m...
- ANNEX-1 product list and subject-specific minimum amount for high technology (NACE 21, 26, 30.3) and medium-high technology (NACE 20, 25.3, 27, 28, 29, 30.2, 30.4, 30.9, 32.5) product inves...
- Used/refurbished machinery is not covered by incentives in high and medium-high technology investments

D18 Employer's social security contribution share support (incentive-certified investment)

Eligible

Republic of Türkiye Ministry of Industry and Technology (budget) – via SGK · Social security premium · Open all year · deadline 31 Dec 2030

A portion of the employer's social security contribution share corresponding to the minimum wage for additional employment created by an incentive-certified investment is covered by the Ministry budget for a duration determined according to the region and programme.

RATE

100% in Region 6 and 50% in other regions of the employer's share corresponding to the minimum wage. Duration — Target and Priority investments: Region 1 none, Region 2: 1 year, Region 3: 2 years, Region 4: 4 years, Region 5: 8 years, Region 6: 12 years. Century of Türkiye programmes: 8 years, 12 years in Region 6. Investments in OIZs/in...

UPPER LIMIT

Limited to the employer's share corresponding to the minimum wage per person and to the number of additional employees registered in the incentive certificate.

Also required at application:

- Limited to the additional employment registered in the certificate for which a completion visa has been issued
- Timely submission of monthly premium and service declarations to SGK and timely payment of the portion not covered by the Ministry
- This support is not granted to investments carried out across multiple provinces under the sectoral incentive system

D19 VAT exemption and customs duty exemption within the scope of an incentive certificate

Eligible

Republic of Türkiye Ministry of Industry and Technology (certificate); Turkish Revenue Administration and customs administration (implementation) · Exemption · Open all year · deadline 31 Dec 2030

No VAT is paid on domestic deliveries and imports of investment goods machinery and equipment within the scope of an incentive certificate; machinery and equipment imported under the certificate are exempt from customs duty. Provided across all programmes (Target, Priority, Century of Türkiye).

Why it is a priority: The exemption on imported machinery is the most immediate saving, and it is only available if the certificate is in place before the order.

RATE

VAT: VAT exemption (0% VAT) on imports and domestic deliveries of machinery and equipment within the scope of the certificate, as well as on software and intangible rights sales/leases under the project. Customs duty: exemption on imported machinery and equipment within the scope of the certificate. Machinery and equipment in ANNEX-4 may...

UPPER LIMIT

No monetary ceiling; limited to the machinery and equipment list in the certificate. Minimum fixed investment for an incentive certificate (2026): TRY 15,100,000 in Regions 1–2, TRY 7,500,000 in Regions 3–6; for financial leasing, at least TRY 3,800,000 with each leasing company.

Also required at application:

- The investment must be linked to an incentive certificate under an incentive programme (ANNEX-3 Target, Art. 9 Priority, or Century of Türkiye programme)
- Customs exemption is not applied to the import of machinery and equipment in the ANNEX-4 list; used ANNEX-4 machinery is not covered by incentives
- Import of CKD components and parts for passenger cars and light commercial vehicles is excluded from exemption

D21 Investment site allocation Eligible

Ministry of Environment, Urbanisation and Climate Change (Priority/Target); Ministry of Industry and Technology – Directorate General of Industrial Zones (Century of Türkiye) · Exemption · Open all year · deadline 31 Dec 2030

Treasury-owned immovable properties may be allocated as an investment site for incentive-certified investments in accordance with the procedure under Supplementary Article 3 of Law No. 4706.

RATE	UPPER LIMIT
Allocation of Treasury-owned immovable property through easement right / right of use (no rate; subject to procedures and principles).	No monetary limit; subject to the availability of suitable Treasury-owned immovable property.

Also required at application:

- Site allocation is not granted to investments for which tax reduction is not envisaged (e.g. Target investments in Istanbul)
- Site allocation is not granted to electricity generation investments
- Availability of Treasury-owned immovable property suitable for allocation and compliance with the procedures and principles of Law No. 4706

Not eligible at present

SUPPORT	CONDITION NOT MET
D33 Strategic Move Programme (Century of Türkiye Development Move)	Minimum fixed investment (2026): TRY 125 million (high technology; TRY 251 million for other products) or TRY 62.7 million for digital/green transformation
D34 Technology Move Programme (Century of Türkiye Development Move) one condition missing	Existence of a project for developing and manufacturing new products/technologies
D38 Region 6 support in earthquake zone districts and OIZs of Attraction Centres (provisional scheme)	Located in an earthquake province (Adana, Adıyaman, Diyarbakır, Elazığ, Gaziantep, Hatay, Kahramanmaraş, Kilis, Malatya, Osmaniye, Şanlıurfa) or within an OIZ in Attraction provinces (Erzincan, Sivas, Bayburt, Erzurum, Tunceli)
D49 Social security premium support (employee's share) – Region 6	Investment in Region 6

4 KOSGEB supports

5 Eligible	**0** Likely (information missing)
5 Not eligible	**10** Screened under this heading

As a manufacturing SME planning digital and green investments, the company fits several KOSGEB programmes. The SME Digital Transformation Support Programme and YÖNDE are open now, while the Capacity Development, Global Competitiveness and Green Industry programmes are call-based and are expected to reopen. The entrepreneur programmes are not available because the company is past the start-up age they require.

Eligible supports

D09 SME Digital Transformation Support Programme — Eligible

KOSGEB (in cooperation with EBRD) · Interest / profit share · Open all year · call open

Provides non-reimbursable interest support for investment loans for new machinery-equipment, software, and hardware of small and medium-sized manufacturing enterprises that have received digital transformation consultancy.

Why it is a priority: It is open all year and matches the planned investment in software, automation and data.

RATE
Interest support is calculated based on the loan amount, maturity, and support points. Support points are determined by the Presidency Approval (Art. 6/3); shown as 20 points (non-reimbursable) in the programme page table.

UPPER LIMIT
Minimum investment loan limit per enterprise is TRY 1,000,000, maximum limit is TRY 20,000,000 (2026). Maximum maturity is 36 months, with a grace period of up to 6 months upon bank approval. Programme duration is 24 months.

Also required at application:

- Must have received digital transformation consultancy from an authorised organisation (TÜBİTAK TÜSSİDE, MESS Technology Centre/MEXT, İHKİB Digital Transformation Centre) and have an approve...
- Total equity must be positive in the latest financial year; operating profit must be positive in at least one of the last 3 financial years (Art. 7/7).
- Primary activity code must not be listed in the EBRD 'Ineligible Sectors and Activities' table (Art. 7/6).

D13 Capacity Development Support Programme Eligible

KOSGEB · Interest / profit share · Call-based · call expected

Provides loan interest support for the scaling-up and digital transformation investments of fast-growing small and medium-sized manufacturing and informatics enterprises. Personnel, machinery-equipment/mould, software, service procurement, and working capital expenditures are covered.

RATE

Non-reimbursable 20-point financing support towards the interest/profit share of the loan (support points are determined by Presidential Approval, Art. 6/6; 20 points in 2026 terms). Credit Guarantee Fund (KGF) surety may be used.

UPPER LIMIT

Minimum loan limit of TRY 1,000,000 and maximum limit of TRY 20,000,000 per enterprise (2026). TRY 30,000,000 for defence, aviation, and space supplier development cooperation; TRY 25,000,000 for EYDEP-C, TRY 27,500,000 for EYDEP-B, TRY 30,000,000 for EYDEP-A. Project duration of 24 months (extendable up to a maximum of 30 months), maxim...

Also required at application:

- Must be a 'fast-growing enterprise': at least 10 employees (3,600 premium days) in the base year and an annual average growth of 10% or more in employment or net sales over the last 3 years...
- Under Section J, only 61–63 are eligible; under Section M, only 72 is eligible.
- Manufacturing enterprises must hold a valid Industrial Registry Certificate (Art. 13/7) and a YODA report obtained within the last 1 year (Art. 13/8).

D14 Global Competitiveness Support Programme Eligible

KOSGEB · Interest / profit share · Call-based · call expected

Provides interest support for loans in large-scale growth projects of medium-high or high-technology SMEs that are fast-growing, with increasing exports and/or R&D. Personnel, machinery, software, procurement of services, and working capital are covered.

RATE

Non-reimbursable support of up to 20 points on loan interest/profit share (Art. 6/5; 20 points in the 2026 1st call). KGF surety can be utilised.

UPPER LIMIT

Minimum loan limit per enterprise is TRY 30,000,000, maximum limit is TRY 75,000,000 (2026). Project duration is 24 months (maximum 30), maximum loan maturity is 36 months. Annual ceiling for interest support is TRY 10,000,000 per enterprise (Presidential Decision No. 9504).

Also required at application:

- Must satisfy at least one of the following (Art. 7/5): (a) fast-growing, medium-high or high-technology, with exports increasing every year in the last 3 years; (b) fast-growing, with expor...
- Fast-growing: at least 10 employees in the baseline year, and an annual average growth of 10%+ in employment or net sales over 3 years. This is checked automatically by KBS.
- If the first loan drawdown is not made within 9 months from the start of the project, the project is cancelled.

D24 Green Industry Support Programme (Türkiye Green Industry Project – World Bank) Eligible

KOSGEB (World Bank loan; Ministry of Industry and Technology and TÜBİTAK as partners) · Repayable support · Call-based · call expected

Provides repayable support for small and medium-sized industrial SMEs' rooftop/ground-mounted self-consumption SPP investments, as well as investments in energy, water, and raw material efficiency, waste recycling, industrial symbiosis, and the circular economy.

Why it is a priority: The planned energy efficiency investment fits this programme; preparing the project file now allows the company to apply as soon as the next call opens.

RATE	UPPER LIMIT
Sub-component 1.1 Solar Energy: 60%. Sub-component 1.2 Clean and Circular Economy: 70%. In enterprises damaged by the 6 February 2023 earthquake, 80% (Adana, Diyarbakır, Elazığ, Gaziantep [excluding Nurdağı and İslahiye], Kilis, Osmaniye, Şanlıurfa) or 90% (Adıyaman, Hatay, Kahramanmaraş, Malatya, Nurdağı, İslahiye). The support is repay...	Directive: USD 500,000 per enterprise for SPP, USD 150,000 for clean/circular (TRY equivalent announced in the call). In the 2023 calls: SPP total TRY 14,000,000, clean/circular total TRY 4,000,000 (repayable). Monthly personnel cap is 2 gross minimum wages per person.

Also required at application:

- Applications cannot be submitted without an open call; eligible sectors are redefined in each call.
- At least 75% of the capital must belong to the private sector, the largest shareholder must be from the private sector, and there must be no public control (Art. 8/2-b).
- Findeks credit rating must meet the minimum level specified in the call: 'medium risk', 'low risk', 'good', or 'very good'.

D28 YÖNDE – Mentoring and Evaluation Support Programme Eligible

KOSGEB · Grant · Open all year · call open

Covers 100% of the service fees on a non-repayable basis for digital transformation assessment analysis and roadmap, TSRS-compliant sustainability reporting, Lean Maturity Assessment Analysis (YODA), and independent evaluation services for Move (Hamle) projects.

Why it is a priority: Its assessment services can prepare the digital transformation road map and sustainability reporting that later applications ask for.

RATE	UPPER LIMIT
100% non-repayable (Art. 5/2; increased from 80% to 100% with the amendment of 20.08.2026).	Programme total TRY 700,000 (from 20.08.2026; previously TRY 280,000). Digital Transformation Analysis TRY 20,000 per service, total TRY 40,000 (maximum 2 times). Sustainability Reporting TRY 100,000 per report, total TRY 200,000. YODA TRY 20,000 per service, total TRY 40,000. Independent Evaluation TRY 150,000 per service, total TRY 450...

Also required at application:

- Digital transformation analysis must be procured from a TÜBİTAK TÜSSİDE-certified consultant; there must be at least 1 year between the two services.
- Sustainability report must be compliant with TSRS and undergo assurance audit by an independent audit institution.
- YODA must be procured from a consultant notified by the Ministry. For the second use, Model Factory services specified in the first report must have been completed.

TRY 1,684,530
annual estimate, lower bound

SOCIAL SECURITY PREMIUM SUPPORT (D16)

85 employees × TRY 33,030.00 × 5% × 12 months

Manufacturing (NACE C): 5 percentage points, until 31 Dec 2026; watch for an extension decision. The premium base used is the gross minimum wage; the actual amount is calculated each month from the declared earnings. Having no overdue debt and filing declarations on time are required.

5 Eligible	**2** Likely (information missing)
2 Not eligible	**9** Screened under this heading

The company can already use the premium reduction for its current employees, and the planned hires open further supports, especially if young people and holders of vocational qualifications are recruited. Several employment incentives cannot be used for the same employee at the same time, so the order in which they are claimed should be agreed with the company's accountant. Confirming whether women or people on unemployment benefit will be among the new hires would turn two likely supports into firm results.

Eligible supports

D07 Incentive for the Employment of Youth, Women, and Holders of Vocational Certificates (Law No. 6111) Eligible

Social Security Institution (SGK) (from the Unemployment Insurance Fund); Turkish Employment Agency (İŞKUR) · Social security premium · Open all year · deadline 31 Dec 2026

When individuals over the age of 18 who have been unemployed for the last 6 months are hired additionally to the average insured headcount of the last 6 months, the entire employer's share calculated over earnings subject to premium (PEK) is covered by the Unemployment Insurance Fund; the duration ranges between 6 and 54 months depending on the individual's...

Why it is a priority: The planned hiring of young people and vocationally qualified staff fits this incentive directly.

RATE	UPPER LIMIT
The entire employer's share of social security premiums calculated over earnings subject to premium (excluding the employer's share of unemployment insurance; 2-point/5-point discount in manufacturing + remaining 19.75%/16.75%). Duration: Women aged 18+ and men aged 18–29: 24 months without certification, 36 months for graduates of vocat...	2026: per person per month TRY 7,184.03 (PEK lower limit TRY 33,030) – TRY 64,656.23 (PEK upper limit TRY 297,270).

Also required at application:

- The individual must have been unemployed (not de facto insured) in the 6-month period prior to the date of recruitment; exceptions exist for apprentices/interns/İŞKUR trainees, etc.
- Recruitment must be additional to the average number of insured employees reported to SGK in the preceding 6 months
- The individual must be over the age of 18 and de facto working

D16 2-Percentage-Point (5-Percentage-Point in Manufacturing) Reduction in Employer's Share of Disability, Old-Age and Survivors Insurance Eligible

Social Security Institution (SGK) (from the budget of the Ministry of Treasury and Finance) · Social security premium · Open all year

A reduction of 2 percentage points (5 percentage points in NACE C manufacturing workplaces until 31 December 2026) over the earnings subject to premium (PEK) is granted from the employer's share of disability, old-age, and survivors insurance (MYÖ) for private-sector employers' 4/a insured employees.

Why it is a priority: It applies to every current employee through the monthly declaration and requires no separate application.

RATE
Non-manufacturing: 2 percentage points (from 01 January 2026; 4 percentage points between 01 February 2025 and 31 December 2025). Manufacturing sector (NACE Rev. 2 C): 5 percentage points until 31 December 2026 (the President may extend it until 31 December 2027). Calculation: PEK × points.

UPPER LIMIT
2026: per person monthly TRY 660.60 (lower limit, 2 points) – TRY 5,945.40 (upper limit TRY 297,270, 2 points); in manufacturing TRY 1,651.50 – TRY 14,863.50. There is no total cap; it applies to all eligible insured employees.

For you: 5 percentage points (manufacturing; until 31 December 2026)

Also required at application:

- Must be a private-sector employer (excluding public institutions within the scope of Law No. 5335, Art. 30/2 and tendered procurement works under Laws Nos. 2886/4734)
- Monthly premium and service declaration / MPHB must be submitted within the statutory deadline
- Premiums must be paid within the statutory deadline

D23 İŞKUR On-the-Job Training Programme (İEP) Eligible

Turkish Employment Agency (İŞKUR) · Mixed · Open all year

The employer trains the prospective employee at the workplace; during the programme, a daily mandatory expense allowance is paid to the participant by İŞKUR, incurring no wage cost for the employer; an employment commitment is required at the end of the programme.

Why it is a priority: The on-the-job training programme lets the company train new production staff before taking them on, without wage cost during the programme.

RATE
2026 participant daily allowance (for days actually attended): TRY 1,079.83 for job seekers, TRY 809.87 for high school and lower-level students, TRY 539.91 for unemployment benefit recipients; TRY 1,403.78 / TRY 1,052.83 / TRY 701.89 in 'Professions of the Future'. 30% higher for vocational high school field matches and for women within...

UPPER LIMIT
Duration: up to 6 months for manufacturing and IT workplaces / Annex-1 occupations, 3 months in other sectors, 9 months for Professions of the Future; 5–8 hours per day, maximum 6 days / 45 hours per week. Quota: 30% of the number of insured employees.

Also required at application:

- Being registered as an employer with İŞKUR
- Employment commitment: to employ at least 60% of participants for at least twice the programme duration and not less than 60 days (50% and 1.5 times the duration, not less than 60 days, unt...
- The programme cannot be opened in the 'Unskilled Occupations' group

D25 2026 Minimum Wage Support Eligible

Social Security Institution (SGK) (from the Unemployment Insurance Fund) · Social security premium · Open all year · deadline 31 Dec 2026

In 2026, private-sector employers receive support calculated as the number of premium payment days of eligible insured employees × TRY 42.33, which is offset against their premium debts.

RATE

Daily TRY 42.33 × total number of premium payment days (TRY 1,269.90 for 30 days ≈ TRY 1,270 per month). The support is calculated for the days of insured employees whose daily average PEK did not exceed TRY 1,300 in the same month of 2025 (TRY 2,600 in workplaces with collective labour agreements; TRY 3,467 for underground coal/lignite...

UPPER LIMIT

Maximum of ~TRY 1,270 monthly per insured employee (2026); no total cap.

Also required at application:

- Must be a private-sector employer (excluding entities under Law No. 5335, Art. 30/2; workplaces with workplace codes (1)/(3) and public-character workplaces with codes (2)/(4))
- Monthly declarations for 2026 must be submitted within the statutory deadline and premiums paid on time
- The number of employees subject to long-term insurance branches in the relevant month must not fall below the lowest monthly count of insured employees in 2025

D29 Turkish Employment Agency (İŞKUR) Vocational Training Courses (with employment commitment) and Qualified Workforce Training Programme (NİYEP) Eligible

Turkish Employment Agency (İŞKUR); in cooperation with the Union of Chambers and Commodity Exchanges of Türkiye (TOBB) for NİYEP · Mixed · Open all year

İŞKUR opens a course in the occupation required by the employer; trainees' daily allowances, general health insurance (GSS), and occupational accident premiums are covered by İŞKUR, meaning the employer incurs no training costs; in return, the employer provides an employment commitment for the trainees.

RATE

Trainee daily mandatory allowance (NİYEP page, 2026): TRY 1,079.83 for jobseekers, TRY 539.91 for unemployment benefit recipients; TRY 1,403.78 / TRY 701.89 under 'Her Meslekte Kadın Eli' ('Women's Touch in Every Profession'). GSS and occupational accident and occupational disease premiums are paid by İŞKUR. No direct cash payment to the...

UPPER LIMIT

Course duration is a maximum of 160 actual days; 5–8 hours per day, 30–45 hours per week. Trainee quota: 12 persons for 5–9 insured employees, 24 persons for 10–49 insured employees, 50% of insured employees for 50+ insured employees (in NİYEP, equal to the number of insured employees for 1–4 insured employees).

Also required at application:

- Employment commitment: employing at least 60% of the trainees for at least twice the duration of the course and for a minimum of 120 days
- For private sector manufacturing employers until 31 December 2026, 50% and 1.5 times the duration; in case of re-participation, the number of insured employees must not have fallen below th...
- Being an employer registered with İŞKUR

Likely supports — confirmed once the information is clarified

D31 Positive Discrimination Project for Female Employment (KİPAP) Likely

Turkish Employment Agency (İŞKUR) · Grant · Open all year

Monthly support for premiums, taxes, and wages is paid to employers in the manufacturing, information-communication, or human health-social work sectors upon hiring unemployed women registered with İŞKUR.

RATE
Up to TRY 32,500 per month per employed woman in premium, tax, and wage support (based on the number of SGK premium days); childcare support of TRY 10,000 per month for up to 6 months for participants with a child aged 0–66 months.

UPPER LIMIT
Project duration up to 3 months → up to ~TRY 97,500 per person + childcare support. Participant quota is 10% of the number of insured employees.

To be confirmed:

- Female employment plan

Also required at application:

- Being an employer registered with İŞKUR
- Participant: an unemployed woman registered with İŞKUR on the date of employment entry, a Turkish citizen, and aged over 18
- The participant must not have had long-term insurance cover in the month prior to commencement, and must not have worked for an employer with the same tax identification number in the last...

D32 Premium Incentive Applied in the Employment of Unemployment Benefit Recipients Likely

Social Security Institution (SGK) (from the Unemployment Insurance Fund); Turkish Employment Agency (İŞKUR) · Social security premium · Open all year

If an unemployment benefit recipient is hired in addition to the average number of insured employees over the previous 6 months, a substantial portion of the premiums calculated over the lower earnings threshold subject to premium (PEK) is covered by the Fund for the remaining benefit entitlement period.

RATE
1% of the short-term insurance premiums calculated over the lower limit of earnings subject to premium, along with the entirety of the long-term insurance premiums (employee + employer) and general health insurance premiums (total 34.5%), are covered by the Unemployment Insurance Fund. Duration: up to the insured person's entitlement (re...

UPPER LIMIT
2026: TRY 11,395.35 per person per month (TRY 33,030 × 34.5%) — fixed on the lower limit of earnings subject to premium (PEK).

To be confirmed:

- Plan to hire a recipient of unemployment benefits

Also required at application:

- The hired individual having qualified to receive unemployment benefit on the date of commencement of employment
- Commencing employment at a workplace other than the last workplace prior to qualifying for the benefit
- The hire being additional to the average number of insured employees over the previous 6 months

Not eligible at present

SUPPORT	CONDITION NOT MET

6 Export supports

8 Eligible	**1** Likely (information missing)
3 Not eligible	**12** Screened under this heading

With ongoing exports, membership of an exporters' association and a registered trademark, the company meets the prerequisites for most export supports. Trade fair, promotion, market research and overseas trademark registration supports fit its plan to grow abroad, and Türk Eximbank credits can support export financing. E-export supports become available if the company starts selling through foreign marketplaces or its own online store; overseas unit rental support requires an office, store or warehouse abroad.

Eligible supports

D01 Brand and TURQUALITY® Support — Eligible

Ministry of Trade of the Republic of Türkiye (Directorate General of Exports – Department of Branding and Design Supports); programme management: Turkish Exporters Assembly (TİM)/TURQUALITY · Grant · Open all year

Comprehensive support is provided for 4–5 years to brands admitted to the programme: promotion, trade fairs, consultancy, overseas unit rent/set-up, franchising, employment of designers/engineers, overseas patent/trademark/design registration, market entry/licensing, and market research.

RATE	UPPER LIMIT
50% (may be reduced to 40% or 25% based on performance evaluation; +20 points in target countries, +5 points in target sectors)	Annual limits per company for 2026 are approximately TRY 246,634,310 (Brand programme) and TRY 493,271,347 (with at least one brand under TURQUALITY). Circular base values are TRY 50,000,000 / TRY 100,000,000. There are also annual sub-limits for consultancy and employment (base TRY 10,000,000). Development roadmap is a one-off TRY 2,400...

Also required at application:

- Average exports over the last 3 years of at least USD 3,000,000 (this requirement is waived if exports in the last year are at least USD 10,000,000)
- Domestic trademark registration and overseas registration in at least one Madrid Protocol country; registrations must have been obtained at least 1 year prior to application
- Domestic registration application must have been filed prior to or on the same date as the overseas application

D02 Türk Eximbank Pre-Shipment Export Credits (SÖİK and CBRT-Sourced Rediscount) Eligible

Export Credit Bank of Türkiye (Türk Eximbank); Central Bank of the Republic of Türkiye (TCMB)-sourced rediscount · Repayable support · Open all year

Short-term credit at cost-effective market rates is provided in TRY or foreign currency for pre-shipment production and financing against an export commitment. It is open to exporters and final-producer manufacturers producing goods for export.

RATE

This is not a grant; interest/profit share rates are announced by Eximbank based on maturity, amount, and currency. Intermediary banks may add an intermediation commission of up to a maximum of 1 percentage point per annum on TRY credits and 0.5 percentage points on foreign currency credits.

UPPER LIMIT

Company limits are determined by Eximbank's credit assessment. For SÖİK Participation TRY/Foreign Currency, the limit is USD 15 million per company, with a total programme balance of USD 25 million (Eximbank product page). For short-term loans, maturity is generally up to 360 days.

Also required at application:

- Definitive export commitment and timely closure of the commitment
- Creditworthiness: absence of adverse records such as protested bills, enforcement proceedings, attachments, bankruptcy, or cheque-writing bans
- Foreign Trade Corporate Companies (DTSŞ) / Sectoral Foreign Trade Companies (SDTŞ) cannot benefit from this product

D11 Promotion Support (Overseas Advertising, Promotion, and Marketing) Eligible

Republic of Türkiye Ministry of Trade (General Directorate of Exports); examination: General Secretariat of Exporters' Associations · Grant · Open all year

Half of the expenses incurred abroad for advertising and promoting products manufactured in Türkiye are supported: TV/radio, digital, social media, SEO, catalogues, billboards, PR, influencers, listing fees, pop-up stores, etc. Support is granted either linked to an overseas unit or linked to trademark registration.

RATE

50% (+20 points in target countries, +5 points where target country and sector coincide; maximum 75% in total)

UPPER LIMIT

2026: for companies with an overseas unit, TRY 12,329,397 per country per year; for companies without a unit but with domestic registration and registration/application in the target country, TRY 12,329,397 per country per year; for companies without a unit and overseas registration but with domestic registration and a registration appli...

Also required at application:

- Trademark registration or registration application in the target country for promotion not linked to a unit
- The initial registration of the trademark must have been made in Türkiye; contract manufacturing of foreign brands is not supported
- An agreement is required for expenses exceeding TRY 50,000

D17 Market Entry Certificate Support Eligible

Ministry of Trade of the Republic of Türkiye (Directorate General of Exports); examination: General Secretariat of Exporters' Associations · Grant · Open all year

Half of the expenses for product certification, testing/analysis reports, licensing, and registration required for entry into target markets are covered. Supported certificates are listed in Annex 1/B of the Circular (most recent updates on 30 March 2026 and 28 September 2026).

RATE

50% (under Decision No. 5973, Art. 29, the rate may be increased by up to 20 percentage points in target countries; total support cannot exceed 75% of the expenditure)

UPPER LIMIT

TRY 19,728,672 per company per annum (2026). The base amount in the Decision text is TRY 4,000,000; updated annually by (CPI+PPI)/2.

Also required at application:

- The certificate must be included in Annex 1/B list of the Circular
- The certificate/test report must be obtained from an accredited body deemed appropriate by the Ministry
- Payments must be made through banking channels from the company account

D20 Türk Eximbank Post-Shipment Rediscount Credit and Short-Term Export Credit Insurance Eligible

Export Credit Bank of Türkiye (Türk Eximbank) · Mixed · Open all year

Deferred-payment export receivables are financed by discounting for up to 360 days. Receivables can be insured against commercial and political risks through short-term export credit insurance.

RATE

85% of the receivable covered under KVİKS is financed; the remaining 15% is disbursed upon payment by the buyer. 100% with a domestic bank guarantee or factoring. Insurance coverage is generally up to 90% of the receivable. Interest and premium rates are determined by Eximbank.

UPPER LIMIT

Company limits are determined by Eximbank specific to the exporter and are pooled with CBRT (TCMB) Export Rediscount Credit limits.

Also required at application:

- Deferred-payment export receivable (maximum 360 days)
- KVİKS policy and buyer limit approval, or domestic bank guarantee/confirmed letter of credit/aval
- Creditworthiness: no repayment default to Eximbank, no protested bills, enforcement, attachment, bankruptcy, or cheque drawing ban

D22 Overseas Trade Fair Support (Individual and National Participation) Eligible

Ministry of Trade of the Republic of Türkiye (Directorate General of Exports – Department of Promotion and Fairs); application: General Secretariat of Exporters' Associations (İBGS) · Grant · Open all year

Expenses such as venue rental, stand, freight, and transport at overseas trade fairs are supported. Support is calculated on the basis of stand m² × base amount eligible for support per m²; a ceiling applies according to the fair category.

Why it is a priority: The planned overseas trade fairs can be supported, provided the application is made through the exporters' association within the required period.

RATE

50% of the base amount eligible for support; 70% in target countries; 75% where target country and target sector coincide. The support shall in no case exceed 50%, 70%, or 75% of the incurred expense.

UPPER LIMIT

Per fair (2026): general attribute TRY 738,563; sectoral attribute TRY 1,231,848; prestigious TRY 3,698,274. A maximum of 5 fairs per calendar year (10 for micro and small enterprises and producer organisations). Prestigious fair support is capped at a maximum of 2 fairs per year across domestic and overseas combined. The same fair may b...

Also required at application:

- The fair must be on the Ministry's list of supported overseas trade fairs
- A capacity report certifying that the exhibited products are manufactured in Türkiye; an agreement with the manufacturer in the case of marketing participants
- No foreign company or brand may be exhibited at the stand; strictly one company per stand

D26 Overseas Trademark Registration Support Eligible

Ministry of Trade of the Republic of Türkiye (Directorate General of Exports); examination: General Secretariat of Exporters' Associations (İBGS) · Grant · Open all year

Half of the expenditure incurred for the registration and legal protection overseas of a domestically registered trademark is supported.

Why it is a priority: Registering the trademark in target markets protects the brand before export volumes grow.

RATE

50%

UPPER LIMIT

TRY 3,698,274 per company per year (2026), for a maximum of 4 years. Decision base amount is TRY 750,000.

Also required at application:

- The trademark must have been initially registered in Türkiye
- Registration and protection fees must be remitted to the overseas registration office or patent attorney through official banking channels

D27 Overseas Market Research Support (and Market Entry Project Preparation Support) Eligible

Ministry of Trade of the Republic of Türkiye (General Directorate of Exports); examination: General Secretariat of Exporters' Associations · Grant · Open all year

Half of the transport and accommodation expenses of company personnel on overseas market research trips are supported. In addition, the cost of market entry project (export plan) preparation services procured from a consultancy firm is supported.

Why it is a priority: Market research support reduces the cost of testing new target markets before larger commitments.

RATE	UPPER LIMIT
Market research: 50% of transport and accommodation expenses. Market entry project preparation: 50%.	Market research: TRY 490,559 per activity (2026); maximum 5 activities per year, maximum 20 activities in total. Market entry project: baseline decision amount of TRY 200,000 per project, maximum 2 projects per company; 2026 updated amount could not be verified.

Also required at application:

- The trip must qualify as market research and the activity report must be submitted
- For market entry projects, the consultancy firm must be covered by the support scheme or prove at least 3 years of activity, 5 consultants, and 50 references via a document certified by a s...
- The invoice issuer, payment recipient, and consultancy firm must be identical

Likely supports — confirmed once the information is clarified

D30 E-Export Supports (Digital Marketplace Promotion, Order Fulfilment/Warehousing, Online Store, Marketplace Commission) Likely

Ministry of Trade of the Republic of Türkiye (Directorate General of Exports – Department of E-Export); application: General Secretariat of Exporters' Associations / TİM E-Export Secretariat · Grant · Open all year

Support is provided for advertising expenses incurred by companies on overseas marketplaces deemed appropriate by the Ministry, order fulfilment services, opening an online store in a target country, services procured from e-commerce stakeholders, and marketplace commissions.

RATE	UPPER LIMIT
50%. An additional 20 percentage points (70%) apply to digital marketplace promotion and order fulfilment in target countries. Total support may not exceed 75% of the expense (Art. 16/4 added by Decision No. 10881). There is no target country addition for online stores (Art. 8) or commissions (Art. 9). The proportion of Turkish product s...	Annual maximum amounts for companies for 2026 (by tier): digital marketplace promotion TRY 36,993,646 (3 years per marketplace; capped at 20% of sales generated from digital advertising); order fulfilment TRY 36,993,646 (3 years per country; capped at 10% of e-commerce sales in that country); online store and stakeholder services TRY 7,3...

To be confirmed:

- Conducting or intending to conduct e-export

Also required at application:

- The marketplace and target country must be on the list deemed appropriate by the Ministry
- The company tier (based on e-export volume) determines the limits
- Companies that are members of an e-export consortium may not apply for supports under Arts. 4, 6, and 9 in countries where the consortium operates sales

Not eligible at present

SUPPORT	CONDITION NOT MET
D37 Unit Rental Support (Overseas Office, Store, Warehouse, Showroom) one condition missing	Has or will establish an office/store/warehouse abroad
D39 Service Export Supports (Service Sectors Leap, Branding, Sustainability Programmes; HİSER)	Operating in one of the eligible service sectors (transport/logistics, accommodation/food, informatics/film, finance, professional-technical, administrative support/trade fairs, education, health, culture-arts)

7 R&D, design and regional supports

1 Eligible	**0** Likely (information missing)
14 Not eligible	**15** Screened under this heading

R&D and design supports are not available at present because the company reports no R&D spending, R&D staff or new product project. Several TÜBİTAK programmes are only one condition away: starting a new product or process development project would open them quickly. The development agency's call-based financial support programmes are open to the company and are worth following.

Eligible supports

D15 Development Agency Financial Support Programmes (regional, call-based) Eligible

Development Agency of the relevant region (26 agencies) – coordination by the Ministry of Industry and Technology General Directorate of Development Agencies · Grant · Call-based

Development agencies provide direct financing (grants), interest support or interest-free loans to enterprises in line with regional priorities; R&D, innovation, digital and green transformation are frequent call themes.

RATE
Regulation Art. 25: support for profit-oriented applicants is a maximum of 50% of eligible costs and cannot be increased (standard financial support programme). Under alternative support programmes, it may be higher according to the guide (e.g. GEKA 2026 Competitive Industrial Enterprises Alternative Support Programme: maximum 80%, up to...

UPPER LIMIT
Varies by programme; minimum/maximum support amounts are specified in each call's application guide.

Also required at application:

- Being registered or having a branch in the provinces within the agency's region
- An active call during that period and project compliance with call priorities (NACE/scale restrictions vary by call; e.g. micro-enterprises may be excluded)
- Provision of co-financing in cash; absence of finalised attachment for 3% or more of the support amount

D59 Stamp Duty and Customs Duty Exemption for R&D/Design Activities	Active R&D/design activity · Certified R&D or design centre, or supported R&D project

8 Application timeline and documents

The first step is to apply for the investment incentive certificate before any machinery order is placed, because the tax, VAT, customs and interest supports all depend on it. The premium reduction for current employees continues automatically, and the SME Digital Transformation Support Programme can be applied for in parallel since it is open now. Call-based KOSGEB programmes should be tracked so that project files are ready when calls open, and export supports should be planned with the exporters' association ahead of each trade fair or campaign. Confirm the timing and combination of supports with the relevant institutions and your accountant.
